

NEW NATURAL GAS PROVIDER

Envestra Limited is Australia's leading natural gas distribution company and owns gas networks servicing more than one million consumers in South Australia, Victoria, Queensland and the Northern Territory.

In October 2010, Envestra acquired Country Energy's gas distribution networks in Wagga Wagga and surrounding towns.

Envestra has contracted APA Asset Management to operate and maintain the gas networks on its behalf. APA has established a new works depot in Blaxland Road, Wagga Wagga to fulfil this role.

In the event of a gas emergency or gas leak, please call 1800 676 300. This service is available 24 hours 7 days a week.

For new connections or any other enquiries, please contact your local gas retailer.

Envestra intends to grow the natural gas business in the Wagga Wagga region and looks forward to developing a close association with the local community and businesses.
